NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.

5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.

6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.

7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.

8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

As the coverage given by such policies has decreased significantly since October 1, 1969, would the Minister not think it reasonable that such policies should be forbidden by the Board of Education for the City of Toronto or sold for a reduced premium.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from ~~exposure~~ exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

51. *Mr. Trotter*—Inquiry of the Ministry—In view of the fact that the Ontario Health Services Insurance Plan now covers most medical services, will the Minister investigate the credability of Student Accident Insurance Policies issued by Mutual of Omaha by the authority of the Board of Education for the City of Toronto. As the coverage given by such policies has decreased significantly since October 1, 1969, would the Minister not think it reasonable that such policies should be forbidden by the Board of Education for the City of Toronto or sold for a reduced premium.

52. *Mr. Winkler*—Enquiry of the Ministry—Was Mr. Stephen Lewis, M.P.P., Scarborough West, ever a member of The Board of Directors of Browndale. Is Mr. Stephen Lewis, M.P.P., Scarborough West, a member of The Board of Directors of Brown Camps Residential and Day Schools.

54. *Mr. Good*—Enquiry of the Ministry—1. How many assessors at the province are attending the convention in Windsor of the Institute of Municipal Assessors, at Government expense. 2. What is the total cost to the government of this convention. 3. Since the Area Director of Assessment for Metropolitan Toronto is also Secretary-Treasurer of the Institute, how much time from his job as Area Director does he take to look after the affairs of the Institute, in light of the fact that he receives \$21,000 salary as Area Director and I believe \$12,000 honourarium as Secretary-Treasurer of the Institute.
55. *Mr. Winkler*—Enquiry of the Ministry—How much money has been paid to. 1. Brown Camps Limited from June 23, 1965 to December 31, 1969. 2. Brown Camps Leasing Limited, March 17, 1967 to December 31st, 1969. 3. Brown Camps Residential and Day Schools from December 14th, 1967 to December 31, 1969 through The Child Welfare Act.

What period of time is the lease for. What is the lease fee. 3. Is this vessel well suited for hydrological surveys. Does the accommodation for staff meet standards of the Department of Labour. How large a staff is aboard the vessel.
58. *Mr. Peacock*—Enquiry of the Ministry—1. Did Vroom Construction Limited submit the lowest tender or proposal price for the development of a 278 unit student residence at York University. 2. If not, was any other proponents' tender or proposal price marked up by OSHC or OHC, for any reason, above the Vroom price. 3. Did York University agree that the Vroom proposal was to be preferred over any other proposal in regard to design and compatibility with the present College "E" academic building. 4. What are the names of the proponents for this project. 5. Is it the policy of the Ontario Housing Corporation and Ontario Student Housing Corporation to "mark up" or otherwise adjust upward the proposal price of a proponent from outside the province of Ontario.
59. *Mr. Smith* (Nipissing)—Enquiry of the Ministry—1. Under Section 7 of the Air Pollution Control Act 1967, has the Minister of Energy and Resources issued to the International Nickel Company a certificate of approval for the construction of a 1,250 foot effluent stack at Sudbury. If not, why is construction proceeding. 2. What contaminants other than Sulphur Dioxide will be emitted from the stack and in what quantity.

3. What guarantees can be given to the residents of Nipissing District that the air pollution from the new stack will not blanket the Nipissing District area and the City of North Bay. 4. Will the Minister of Energy and Resources include in his certificate of approval for construction restrictions on the use of the stack when completed including a provision to stop its use if air pollution from the stack of areas adjacent such as Nipissing reach certain levels to be agreed upon by the Air Management Branch and Municipal representatives from the areas that could be affected. 5. Will the Minister of Energy and Resources investigate the proposed stack construction with a view to forcing International Nickel Co. to stop its construction and force the company to institute immediately a realistic program of research to curb and control its effluent.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

What were the three principal agencies involved in each of queries 3 and 4; and the fees paid to each. 6. In the fiscal year 1969-70, were any of the speeches or statements of each Minister or of any other member of his staff prepared or written by people outside of his Department. If so, by whom and at what cost. 7. How many persons were employed in the information services branch of each Department in the fiscal year 1969-70, and what were their salaries. 8. What were the travelling expenses of each Minister and of his Deputy Ministry in the fiscal year 1969-70.

51. *Mr. Trotter*—Inquiry of the Ministry—In view of the fact that the Ontario Health Services Insurance Plan now covers most medical services, will the Minister investigate the credability of Student Accident Insurance Policies issued by Mutual of Omaha by the authority of the Board of Education for the City of Toronto. As the coverage given by such policies has decreased significantly since October 1, 1969, would the Minister not think it reasonable that such policies should be forbidden by the Board of Education for the City of Toronto or sold for a reduced premium.

52. *Mr. Winkler*—Enquiry of the Ministry—Was Mr. Stephen Lewis, M.P.P., Scarborough West, ever a member of The Board of Directors of Browndale. Is Mr. Stephen Lewis, M.P.P., Scarborough West, a member of The Board of Directors of Brown Camps Residential and Day Schools.

What is the total cost to the government of this convention. 3. Since the Area Director of Assessment for Metropolitan Toronto is also Secretary-Treasurer of the Institute, how much time from his job as Area Director does he take to look after the affairs of the Institute, in light of the fact that he receives \$21,000 salary as Area Director and I believe \$12,000 honourarium as Secretary-Treasurer of the Institute.
55. *Mr. Winkler*—Enquiry of the Ministry—How much money has been paid to. 1. Brown Camps Limited from June 23, 1965 to December 31, 1969. 2. How large a staff is aboard the vessel.
58. *Mr. Peacock*—Enquiry of the Ministry—1. Did Vroom Construction Limited submit the lowest tender or proposal price for the development of a 278 unit student residence at York University. 2. If not, was any other proponents' tender or proposal price marked up by OSHC or OHC, for any reason, above the Vroom price. 3. Did York University agree that the Vroom proposal was to be preferred over any other proposal in regard to design and compatibility with the present College "E" academic building. 4. What are the names of the proponents for this project. 5. Is it the policy of the Ontario Housing Corporation and Ontario Student Housing Corporation to "mark up" or otherwise adjust upward the proposal price of a proponent from outside the province of Ontario.
59. *Mr. Smith* (Nipissing)—Enquiry of the Ministry—1. Under Section 7 of the Air Pollution Control Act 1967, has the Minister of Energy and Resources issued to the International Nickel Company a certificate of approval for the construction of a 1,250 foot effluent stack at Sudbury. If not, why is construction proceeding. 2. What contaminants other than Sulphur Dioxide will be emitted from the stack and in what quantity.

3. What guarantees can be given to the residents of Nipissing District that the air pollution from the new stack will not blanket the Nipissing District area and the City of North Bay. 4. Will the Minister of Energy and Resources include in his certificate of approval for construction restrictions on the use of the stack when completed including a provision to stop its use if air pollution from the stack of areas adjacent such as Nipissing reach certain levels to be agreed upon by the Air Management Branch and Municipal representatives from the areas that could be affected. 5. Will the Minister of Energy and Resources investigate the proposed stack construction with a view to forcing International Nickel Co. to stop its construction and force the company to institute immediately a realistic program of research to curb and control its effluent.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

51. *Mr. Trotter*—Inquiry of the Ministry—In view of the fact that the Ontario Health Services Insurance Plan now covers most medical services, will the Minister investigate the credibility of Student Accident Insurance Policies issued by Mutual of Omaha by the authority of the Board of Education for the City of Toronto. As the coverage given by such policies has decreased significantly since October 1, 1969, would the Minister not think it reasonable that such policies should be forbidden by the Board of Education for the City of Toronto or sold for a reduced premium.

52. *Mr. Winkler*—Enquiry of the Ministry—Was Mr. Stephen Lewis, M.P.P., Scarborough West, ever a member of The Board of Directors of Browndale. Is Mr. Stephen Lewis, M.P.P., Scarborough West, a member of The Board of Directors of Brown Camps Residential and Day Schools.

What is the total cost to the government of this convention. 3. Since the Area Director of Assessment for Metropolitan Toronto is also Secretary-Treasurer of the Institute, how much time from his job as Area Director does he take to look after the affairs of the Institute, in light of the fact that he receives \$21,000 salary as Area Director and I believe \$12,000 honourarium as Secretary-Treasurer of the Institute.
55. *Mr. Winkler*—Enquiry of the Ministry—How much money has been paid to. 1. Brown Camps Limited from June 23, 1965 to December 31, 1969. 2. If not, was any other proponents' tender or proposal price marked up by OSHC or OHC, for any reason, above the Vroom price. 3. Did York University agree that the Vroom proposal was to be preferred over any other proposal in regard to design and compatibility with the present College "E" academic building. 4. If not, why is construction proceeding. 2. What contaminants other than Sulphur Dioxide will be emitted from the stack and in what quantity.

3. What guarantees can be given to the residents of Nipissing District that the air pollution from the new stack will not blanket the Nipissing District area and the City of North Bay. 4. Will the Minister of Energy and Resources include in his certificate of approval for construction restrictions on the use of the stack when completed including a provision to stop its use if air pollution from the stack of areas adjacent such as Nipissing reach certain levels to be agreed upon by the Air Management Branch and Municipal representatives from the areas that could be affected. 5. Will the Minister of Energy and Resources investigate the proposed stack construction with a view to forcing International Nickel Co. to stop its construction and force the company to institute immediately a realistic program of research to curb and control its effluent.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.

10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.

11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.

13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.

14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.

15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

30. *Mr. Shulman*—Enquiry of the Ministry—How many hours of therapy are offered to each inmate at the Alex G. Is this therapy mentioned above given by psychiatrists, psychologists, religious, or lay personnel. At the Provincial Reformatory at Guelph, is it true that a good deal of group therapy is given by guards and Salvation Army personnel. Do these guards and Salvation Army personnel have any training in psychiatry. Are there psychiatrists available at the Guelph Reformatory for therapy, and if so, how many hours per week do they spend with inmates at the institution.

51. *Mr. Trotter*—Inquiry of the Ministry—In view of the fact that the Ontario Health Services Insurance Plan now covers most medical services, will the Minister investigate the credibility of Student Accident Insurance Policies issued by Mutual of Omaha by the authority of the Board of Education for the City of Toronto. As the coverage given by such policies has decreased significantly since October 1, 1969, would the Minister not think it reasonable that such policies should be forbidden by the Board of Education for the City of Toronto or sold for a reduced premium.

52. *Mr. Winkler*—Enquiry of the Ministry—Was Mr. Stephen Lewis, M.P.P., Scarborough West, ever a member of The Board of Directors of Browndale. Is Mr. Stephen Lewis, M.P.P., Scarborough West, a member of The Board of Directors of Brown Camps Residential and Day Schools.

What is the total cost to the government of this convention. 3. Since the Area Director of Assessment for Metropolitan Toronto is also Secretary-Treasurer of the Institute, how much time from his job as Area Director does he take to look after the affairs of the Institute, in light of the fact that he receives \$21,000 salary as Area Director and I believe \$12,000 honourarium as Secretary-Treasurer of the Institute.
55. *Mr. Winkler*—Enquiry of the Ministry—How much money has been paid to. 1. Brown Camps Limited from June 23, 1965 to December 31, 1969. 2. If not, was any other proponents' tender or proposal price marked up by OSHC or OHC, for any reason, above the Vroom price. 3. Did York University agree that the Vroom proposal was to be preferred over any other proposal in regard to design and compatibility with the present College "E" academic building. 4. If not, why is construction proceeding. 2. What contaminants other than Sulphur Dioxide will be emitted from the stack and in what quantity.

3. What guarantees can be given to the residents of Nipissing District that the air pollution from the new stack will not blanket the Nipissing District area and the City of North Bay. 4. Will the Minister of Energy and Resources include in his certificate of approval for construction restrictions on the use of the stack when completed including a provision to stop its use if air pollution from the stack of areas adjacent such as Nipissing reach certain levels to be agreed upon by the Air Management Branch and Municipal representatives from the areas that could be affected. 5. Will the Minister of Energy and Resources investigate the proposed stack construction with a view to forcing International Nickel Co. to stop its construction and force the company to institute immediately a realistic program of research to curb and control its effluent.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid (Scarborough East)*—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.

10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.

11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work

13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.

14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.

15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.

5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.

6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.

7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.

8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.

5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.

6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.

7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.

8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.

5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.

6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.

7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.

8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost⁷ of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

16. *Mr. Smith* (Hamilton Mountain)—Resolution—That this House is of the opinion that members of the teaching profession should not be included in the provisions for Unemployment Insurance proposed by the Federal White Paper on Unemployment Insurance in the '70s.

Education for the City of Toronto. As the coverage given by such policies has decreased significantly since October 1, 1969, would the Minister not think it reasonable that such policies should be forbidden by the Board of Education for the City of Toronto or sold for a reduced premium.

3. What guarantees can be given to the residents of Nipissing District that the air pollution from the new stack will not blanket the Nipissing District area and the City of North Bay. 4. Will the Minister of Energy and Resources include in his certificate of approval for construction restrictions on the use of the stack when completed including a provision to stop its use if air pollution from the stack of areas adjacent such as Nipissing reach certain levels to be agreed upon by the Air Management Branch and Municipal representatives from the areas that could be affected. 5. Did the Deputy Minister of Public Works ask for their resignations, and if so, why?
63. *Mr. Sargent*—Enquiry of the Ministry—1. Is the Government aware that the Department of Trade and Development has purchased economic information regarding the Georgian Bay area, which another Branch of

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.

15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

16. *Mr. Smith* (Hamilton Mountain)—Resolution—That this House is of the opinion that members of the teaching profession should not be included in the provisions for Unemployment Insurance proposed by the Federal White Paper on Unemployment Insurance in the '70s.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

16. *Mr. Smith* (Hamilton Mountain)—Resolution—That this House is of the opinion that members of the teaching profession should not be included in the provisions for Unemployment Insurance proposed by the Federal White Paper on Unemployment Insurance in the '70s.
